UNIFORM SHOWROOM AND PHOTOGRAPHIC STUDIO LIGHTING

Dealership Portfolio

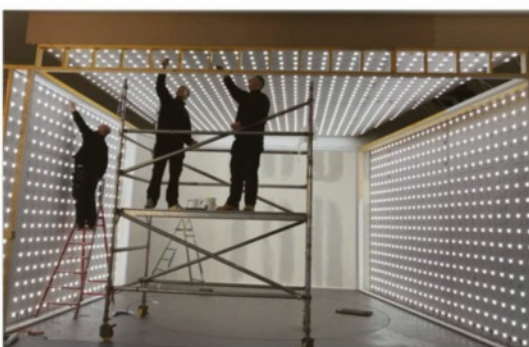

ENERGY EFFICIENT • LONG LIFE • RELIABLE • BESPOKE

Our extensive experience and product knowledge in the Stretch Ceiling industry gives us a unique insight into the optimum lighting and reflection capability with our Stretch diffuser material. The Stretch material offers a fantastic opportunity to create soft evenly illuminated, cool and clean or loud and colourful no glare luminaires.

Our flexible daisy chain advanced LED modular system provides energy efficiency, long life, and reliability. The complete stretch and lighting system can be installed quickly on site following pre-assembly and testing in our workshop. Component parts also available in kit form for export.

- 4 Point Quadlink LED Modules
- 1.44 W per module, 12v DC
- 137 Lumens per module
